Whether you are a veteran fitness enthusiast or a newcomer, we welcome you to come and enjoy the benefits of working out in a group setting. We think you will love the energizing experience of being a part of a group of people who are having fun getting in the best shape of their lives!

TONING AND STRENGTH TRAINING CLASSES

Our Toning & Strength Training classes reduce your body fat percentage, develop and enhance your muscle tone, increase your muscular strength and improve your muscular endurance. Classes are 60 minutes unless otherwise noted.

RIP: A 60 min barbell program for men and women of all ages and fitness levels. Matching movement to music and using traditional strength training allows participants to work at their own level.

TRX: Find out why a US Navy Seal developed the TRX suspension system for training. This workout system leverages gravity and your bodyweight to perform hundreds of exercises. You're in control of how much you want to challenge yourself on each exercise-because you can simply adjust your body to add or decrease resistance. This class builds muscular endurance and appeals to every fitness level. Please call ahead to reserve your spot. All levels welcome.

Transform Yoga: An ideal class for beginners or experienced students. Sun Salutations will warm up the body as well as open and strengthen all major muscle groups. Foundational and balancing poses will be explored as well as hip and shoulder openers. The class will focus on breathing techniques and proper alignment while combining strength, flexibility, endurance, and balance. Modifications will be offered which will address both physical limitations and ways to make poses more challenging.

Lunchtime Crunch Boot Camp: A popular interval class that mixes calisthenics and body weight exercises with cardio and strength training. This boot camp is designed in a way to be different all the time, and push you harder you'd push yourselves. We want to keep you guessing - and challenge you differently every class! Although our instructors may push you like a drill sergeant, our goal is to offer encouragement rather than intimidation. We want you to have tons of fun – but please be prepared for some high intensity training!

Sport & Yoga Stretch: Introducing SPORT! Drills, functional core movements and basic strength training come together to create a total body workout that fits everybody, from the beginner, to the experienced athlete. The moves are basic, yet progressive. Then switch gears to Yoga Stretch that consists of flowing, yoga movements designed to stretch skeletal muscles and deeply relax the nervous system while increasing your flexibility and improving your balance.
